Chickenpox

We would like to advise all Parents and Caregivers that we have had a number of confirmed Chickenpox cases.

Initial symptoms of chickenpox include fatigue, a mild fever, lack of appetite, and a feeling of being generally unwell. This is quickly followed (usually within 24 hours) by the development of a red rash spots, which usually appears on the chest and/or back first, later spreading to the face, scalp, arms, and legs.

A red rash follows 1 to 2 days later. It usually starts on the face and scalp, spreads to the chest, back and tummy and then to the arms and legs. It can also appear inside the ears, on the eyelids, inside the nose and mouth. The rash continues to spread for 3 or 4 days. It usually becomes very itchy.

Within a few hours after each spot appears, a blister forms. It may be full of yellow fluid. After a day or so, the fluid turns cloudy. The blisters release liquid containing the virus, then form crusts or scabs that fall off after 1 to 2 weeks. The spots heal at different stages, some faster than others, so your child may have the rash in several different stages at once.

Some children have mild chickenpox with under 50 spots. Others have a miserable time with hundreds of spots.

Students with Chickenpox are not permitted to be at school until the last blister (all blisters) have formed a scab. As Chickenpox is highly contagious please inform the school office if your child has Chickenpox.

Buy fresh: eliminate quick fix pre-packaged lunches so that only compostable scraps like apple cores and banana peels remain after eating. Not only is it healthier for the whole family, it supports New Zealand farmers.

Self Defence for Women & Girls

Tue, 25 May
@ 7pm

This FREE evening is aimed at Self Defence and giving women and girls the understanding and awareness of how a dangerous situation can arise. What opportunities and options are available to defend and defeat a would-be attacker. Also how to better prepare by understanding and education around such attacks to ensure you have predetermined the outcome by education. The course is simple and straightforward and presented in a non-threatening way to enable everyone to learn and take away some new skills and tools to help them feel safer and more confident. It should be a fun and invigorating time for all who participate. The course is specifically designed for self-defence not fighting.
