#### 2023 Inspire Parent Programme with Hugh - Part 3

#### Part 3: Empathy & Kindness

This next presentation from The Resilience Project is all about Empathy and Kindness.

Empathy is our ability to put ourselves in the shoes of others to feel and see what they do. We practice this through being kind and compassionate towards other

people. Brain imaging data shows that being kind to others registers in the brain as more like eating chocolate than like fulfilling an obligation to do what's right (e.g., eating brussel sprouts)!

Research shows that practicing empathy, such as performing acts of kindness, taps into our brain's 'mirror neurons', build compassion, and our behaviour becomes more social and community-based.

Here's an activity to practice empathy and kindness:

- 1. Reflect on someone in your life who could benefit from an act of kindness today. It could be a friend who would love some affirmation about their work, your pet who deserves an extra treat, or a family member who would love a phone call or text message.
- 2. Make a plan for who you will give an act of kindness to, and what you will do.
- 3. If you want to add accountability to your plan, share it with someone else and encourage them to do the same thing.
- 4. Follow up with each other in a few day's time, to ask how it went!
